*High-energy funk band with **international potential**, combining world-class musicianship with a powerful **father-son story**. They recorded an album together—and that's how it all began...*

ABOUT THE BAND

Aqua Congas is a seven-piece band of professional musicians blending funk, jazz and pop into a powerful live experience. Their music is built on strong groove, expressive vocals and **high-energy performance**.

The band's music is built on a distinctive groove, powerful vocals, and an energetic live performance.

The band's formation was inspired by a deeply **personal moment**.

Drummer and frontman **Filip Zangi** gave his father, percussionist **Imran Musa Zangi**, the opportunity to record his own album as a birthday gift.

This **symbolic gift** evolved into a full-fledged musical project and a dream come true—bringing two **generations together** on one stage.
